

**Nicola van Domburg: Sponsorship Chair,
Consultant – Policy and Projects**

Since relocating to London, Nicola has contracted in a number of Policy and Project based roles, for companies such as Atkins, Transport for London and Barclays Bank Plc. Her work has included analysis of assisted transport services for disabled and older Londoners, analysis of London Boroughs' implementation of the Mayor's Transport Strategy, and the development of WTS London's programme of events and its online functionality. She is currently working on the redevelopment of Battersea Powerstation in the Project Management Team for Atkins.

Prior to her time in London, Nicola worked in policy research, analysis and development for NSW Maritime in Sydney, the State Regulatory Authority responsible for safe and sustainable use of navigable waterways. Nicola has a degree in Atmospheric Science and Environmental Management.
