

Sally Clarke, Joint Events Sub-Committee Chair

Operational Services Manager (Bakerloo, Central & Victoria)
London Underground, TfL

Sally Clarke has worked for the railway industry since 1998, beginning her career on the Railtrack graduate scheme. During her time at Railtrack Great Western Zone, she pursued a number of key operational roles in Signalling and Performance management before joining London Underground in 2002.

In London Underground, Sally's has held a number of increasingly senior roles ranging from Service Improvement and Strategy Development Management to her current role as Operational Services Manager. She is currently responsible for understanding the performance development and project implementation needs of the Bakerloo, Central and Victoria Lines., providing the appropriate level of support and project management to ensure consistency of approach to improvement projects across the network.

Sally and her team contribute to London Underground's primary role in providing a world-class transport service for its customers and in partnership with private companies, ensuring the Tube, its trains and station services run smoothly.
